TREAT YOUR TONGUE!

OTC Concept is a 100% French family business located in the center of France, in Auvergne. Our brands are recognized for their taste and authenticity, the result of a century of know-how. We are very proud of the fact that our honey is produced on top of our offices.

Our guideline is to offer our partners a wide choice of more than 40 flavors of 100% French Natural Hand-Crafted candies distributed in high-end point of sales as well as in pharmacies.

On the other hand, our experience and expertise have allowed us to develop a customization offer for companies wishing to realize white label.
